

Director of Recreational Gymnastics and Part Time Instructors

At Aerials Fit'n'Fun Gymnastics Center, our Children's Fitness Instructors teach fun and engaging gymnastics and sports classes.

The kids are fabulous. This will never be a job you dread when you wake up in the morning!

We teach boys and girls, ages four months to high school, in a wide variety of programs including Recreational Gymnastics, Competitive Teams, Ninja Zone, Trampoline & Tumbling, Birthday Parties, Parent's Night Out, Open Gym, Afterschool Care, Summer Camps, and Summer Skill Clinics!

Aerials is a great place to work!

All our curriculum is compliant with the highest standards of gymnastics fundamentals. We work hard and play hard, and we consistently reward excellent performance. You will have a strong sense of fulfillment, keep fit as you work, learn new things every day, be paid well, have fun, and have many growth opportunities through training and career advancement.

Aerials is the absolute best enrichment and physical development center for kids.

We have been in Phoenixville over 20 years helping thousands of children experience the thrill of achievement, develop new skills, and find new confidence through gymnastics-based programs. We teach in a clean, fun, safe and nurturing environment, which encourages children to develop at their own pace. "Great Job!" "YOU did It!" "WOW!" "That was AWESOME!" This is the common language in our facility. This is the magic that is Aerials!

We are the springboard to all of life's adventures, including yours! Our gymnastics instructors are everything to our organization. They love to hear "I did it!" from their students.

We are a big family, and we genuinely care about our students and their families. As an instructor, you get to be part of magical moments every week. We get to watch kids take their first steps, say their first words, become independent, master their cartwheels, and experience bravery in trying a back tuck--all in day's work!

Our team is full of Superheroes who love the children we teach, love the classes we sell and teach, and love to grow as individuals!

Responsibilities

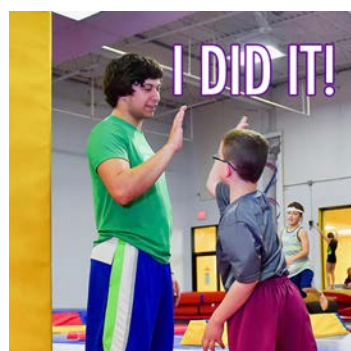

- Teach GREAT classes based on our proven curriculum and teaching method: use your background to contribute to a new generation of athletes' growth!
