

I WANT YOU!

Sure it's been a few years and a bunch of kids later, but you still have it.

Maybe you played sports as a kid. Maybe you were a teacher before the kids came along and had to stop working full time. Maybe you remember the teacher that said just the right thing, just the right way, and it clicked for you. Maybe you're the one who needs to join Aerials.

**Former athletes
teachers
gymnasts
dancers
fitness buffs
sports fans
and
active parents.**

Take it from a guy who was as low on the athletic ability pole as you could be. But I loved to teach kids and watch the excitement in their faces when they learned something new. You know, when they say, "I DID IT!"

"Great Job!" "YOU did It!" "WOW!" "That was AWESOME!" This is the common language in our facility. This is the magic that is Aerials!

Sports changed my life. It gave me opportunities I would never have had otherwise. World travel, Olympic competition, meeting and sharing with every strata of life, waking up every day loving what I do and being able to change young lives for the better along the way. Being a "Difference Maker."

That's you. Somewhere inside you think, "I can make a difference?"

I am always looking for "Difference Makers." One day each week, a few hours each time, or Full Time. Learn what we do and how we do it.

"But I don't know anything about this stuff" you're thinking. Welcome, you're in good company. A young boy in the streets of Philadelphia who was not too skilled in gymnastics but just enjoyed being in the gym. A friend encouraged him to get involved at the local gymnastics club who needed help. "You're a great teacher," the friend said. One thing led to another and not so many years later he was standing by his athletes at the 1984 Olympic Games. Hey wait, That's Me! I could go on, but you get the idea.

Think about it. Get involved.

Email me today.

Be a "Difference Maker." I look forward to hearing from you.
