Aerials

Parents, allow me to introduce myself. My name is Rick Palumbo and I have had the privilege of training elite level athletes for over two decades. These athletes have represented the United States and other countries on their National, World and Olympic Teams. As the founder of Team USA Gymnastics Camp, which featured the most successful athletes and coaches of our time, I was able to promote the benefits of personalized and focused training.

If your daughter is GymStar, USAG level 2 to 10 or any Xcel Level, and wants to improve her skills, then allow me to extend an invitation to attend an intensive training camp right here at our fully equipped, gymnastics club.

Katelyn Ohashi, NCAA National Champion, American Cup Champion, 4X US Team Member.

Imagine your daughter as one of our small group of athletes that will train and rotate as if they were part of an elite training squad. The campers are divided into small groups and train at least 6 hours each day with our staff.

We have seen the positive results of focused, goal-oriented training. Results that improve a gymnast's self-esteem, independence and performance abilities. Through this system of positive reinforcement and specific goal setting, we have been able to help place many athletes on their National Teams.

PHILOSOPHY

Our philosophy has been the same for over 30 years. The Aerials program builds confidence through success. We believe that small successes build confidence. That new-found confidence leads to bigger

3X Olympic Gold Medalist and 7X Gold Medal World Champion Daniela Silivas.

successes and an even higher level of confidence. Through this progressive "success-confidence-success" method we help children understand how to set realistic goals and then achieve them.

Elite Coach Rob Alexrod working with campers.

THE GYM

Our 15,000 ft gym features:

- ▶ the latest equipment and training devices available.
- ▶ 2 in-ground, Olympic size, trampolines with overhead spotting harness
- ▶ Mirrored dance room.
- ▶ Loose foam landing pits for vault, floor, and bars.
- ▶ Resi-pit landing surfaces for beam, vault and bars.
- ▶ In-ground "Trench Bar" training system for bars

- ▶ Air conditioning for "Cool" summer training.

LODGING

Raj Bhavsar, 2004 & 08 Olympic Teams

As for lodging we have two convenient options: Our out-of-town campers can bunk in with members of the Aerials Team and their families. The Aerials Team families are great hosts and the athletes make new friends at their "second" home. Meals, transportation and supervision are supplied by team families throughout the week.

An option for our out-of-town guests who travel as a team, with their gym chaperones, is hotel lodging at the nearby French Creek Inn. Guests who stay at the Inn take their meals at O'Grady's Family Restaurant just across the street.

Whatever your choice, you can rest assure that your children have quality supervision and safety as campers are under 24-hour observation by either our adult staff in the gym or a club parent, or coach, outside the gym. For all athletes attending, our medical doctor is on call 24 hours a day.

Campers enjoy a cool dip AT THE MARSH CREEK POOL in Downingtown

RECREATION

How about recreation?

Of course, in order to be successful, we must strike a balance between hard work and recreation. Our rest times are intermingled with activities, like bowling, swimming and rock climbing, and trips that are unique to the area. In addition, we participate in friendship and memory making activities that will last your child's lifetime.

However, keep in mind, our number one focus is training and improving

your child's gymnastics skill level.

*Theresa Kulikowski
12X NCAA All American*

Parents, consider our philosophy and methods when deciding on your daughter's summer training environment. We believe it takes time and energy to learn, improve, and retain gymnastics skills. We are committed to focused, individualized training to achieve realistic and

specific goals. We expect that these athletes should leave

the gym having accomplished a number of these goals and many they did not even set.

Mary Wright

WHY AERIALS?

Because... You are one of a small group of invited gymnasts.

Because... 5 days of directed, focused and inspired training.

Because... You can train 6 hours each day under some of the country's best coaches.

Why? Because you want your child to improve!

Please join us for this exciting training opportunity. You will be happy with the results. And with my high energy, high powered staff, you can't go wrong!

Call us today to reserve your spot.
