

Parents, Cheerleaders, Advisors

Aerials Fit 'n' Fun Gymnastic Center is now offering Cheerleading classes!! These classes are available for girls in grades kindergarten through 12th. From aspiring to experienced cheerleaders, this program is a great way to help children grow in athleticism and shine with confidence. No experience is necessary! Aerials Cheer class will be taught by highly qualified and experienced staff in the major areas of cheerleading: jumps, stunts, dance, chants, and cheers. Learning basic cheerleading skills will get you pumped up to do even more! Our goal is to transform young people into dynamic athletes and help them develop strong leadership skills for life. Therefore, our program will instill confidence, motivation, enthusiasm, and responsibility in young athletes ...AND WE HAVE FUN DOING IT!!!!!!

Philosophy

Our philosophy has been the same for over 30 years. The Aerials program builds confidence through success. We believe that small successes build confidence. That newfound confidence leads to bigger successes and an even higher level of confidence. Through this progressive "success-confidence-success" method we help children understand how to set realistic goals and achieve them.

Register

Reserve a spot for your child in this NEW program today!! Simply drop by the Aerials and register your child for a cheer class that meets your child's level of interest and skill. If stopping by is inconvenient, then call us at 610-983-9044 and we'll complete your registration and credit card payment info over the phone.

Parents,

Are you looking for a great program to help your child grow in athleticism and shine with confidence?

We have great news! Aerials is beginning a cheerleading program for girls grades K-12th. As the cheerleading coordinator, I would like to tell you a bit about this new opportunity for your young athlete.

The girls that have contacted us over the years typically fall into three categories:

A) Those girls who are thinking about participating with a cheer squad but have little to no experience. They look to us to help them prepare for the movements and skills that are expected of them. This makes their first team experience much more comfortable. No prior experience is necessary.

B) Girls who are currently on a cheer squad, perhaps for their school or another group. These girls are looking to make improvements to the skills they already have or to learn new skills that can contribute to their squad.

C) Girls who have aspirations to join our, soon to be forming, Aerials Stars Cheer team.

With lots of Spirit and Enthusiasm,
Miss Kim Kelley-Landis
